Mr. Dulles:

b) Noted that the Senate Foreign Relations and Armed Services Committees have set up a subcommittee to carry out an investigation of events affecting the situation in the Middle East, and that the Department of State has been requested to furnish a chronological statement of all events significantly affecting this situation during the period from January 1946 to the present together with supporting documents classified and unclassified. The Director said it was obvious that certain aspects of the State reports on this matter will be of interest to CIA and should we be asked to participate in the statement we should limit ourselves to a "chronological listing of intelligence reports disseminated by CIA". It was agreed for the moment that Norman Paul would continue his contact with Rod O'Connor on this matter.
